Uniaxial Accelerometer

Model : 44A_00_BCAB

Installed at the headform's center of gravity, the Uniaxial accelerometer measures impact attenuation.

Features :

- Calibration certificate included;
- ± 500 gs reading range;
- Capacity to withstand up to 5000 Gs without damage;

Above: Real size.

Cable for accelerometer Uniaxial

Model : 250_00_ACUA

Cable for accelerometer Uniaxial with 90 degree connector.
Low noise coaxial cable.

Features :

- Available : cable length of 6 feet;
- Available : cable length of 12 feet;
- One end : 10-32, 2 wire connector;
- Other end : Regular BNC connector.
