Refractive Powers Bench

Model : SB039

Equipment for testing the refractive powers of lenses, according to ECE 22/05, EN and BSI standards.

Features :

- High resolution encoder;
- Calibration lenses supplied;
- Frame made with aluminum profiles;
- 26 X 20 telescope included;
- Software for calculation on your PC;
- Supportive stand or wall attachment bracket options.

Equipment to test refractive powers of lenses.

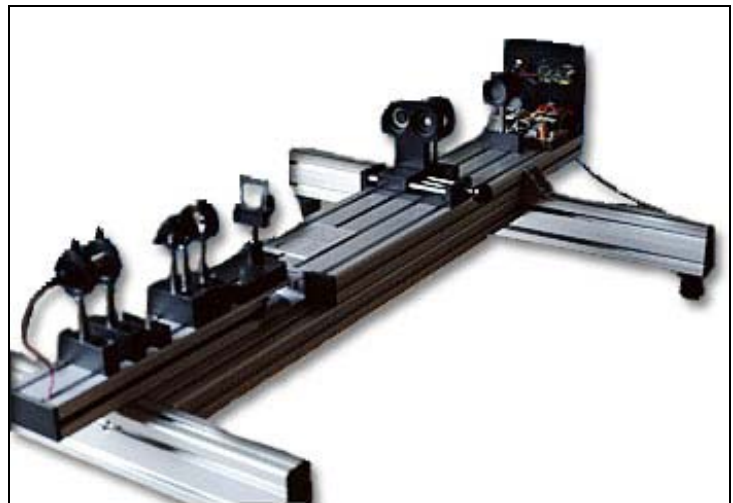

Light Diffusion Bench

Model : SB037

The light diffusion optical bench is designed and manufactured to meet EN 167-168 and ECE reg.22/05 standards.

Features :

- 4½" digit display, 20.000 divisions;
- High precision voltage meter;
- High stabilized linear voltage power supply;
- 110 sq. Mm silicon detector;
- 5 mw laser source.

Light diffusion test bench.
