

Anvils

Multitude of models available

Cadex manufactures a multitude of anvils in accordance with existing standards. The quick release system (exclusive Cadex feature) allows test technicians to quickly interchange impact setups.

FEATURES:

- Each anvil comes with a compliance certificate
- Each anvil comes with a quick release female part
- Male part and clamp are sold separately
- Made with stainless steel
- 360° positioning of the anvils
- More than 20 different models available

Shown during an helmet impact test
